

# Playschool

## PLAYSCHOOL,

our program for two-year-olds, is built around the concept that *play is the work of young children*. Within a flexible and developmentally appropriate curriculum, our students sing, dance, play, and socialize. We also emphasize language development, self expression, and self care tasks. Our Playschool is a unique program in Bowie, providing parents the opportunity to choose from either part-time or full-time care. This means that some parents use our program to introduce a school setting to their child for a few hours at a time, while others choose Playschool to transition their child from home daycare to an academic child care center. Children DO NOT need to be potty trained to attend this program.
